## DETAILS OF THE SERVICE

Marin Memorial Services offers a private ash scattering memorial at sea aboard a beautiful 43' US Coast Guard certified/inspected vessel.

A standard service takes about an hour and a half. We depart from Sausalito and travel into the ocean just past the Golden Gate Bridge. There, the Marin Headlands offer shelter from the wind in a private setting. The service usually involves making 3 circles:

1. During the first circle, flowers are released into the water.
2. We then circle again through those flowers and the deckhand will advise of the appropriate time to deposit the ashes.
3. The third circle provides an opportunity for placing additional flowers and for remembrances and prayers.
